

Write the title of the book under each day of the week read. Parent will initial and Teacher will check off with a stamp if every day is filled.

Name:	Monday	Tuesday	Wednesday	Thursday	Parent	Teacher Check off
Week of ___/___						
Week of ___/___						
Week of ___/___						
Week of ___/___						

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Practice 	Add a single digit to a two digit number.  $23 + 8 = \text{---}$ $29 + 6 = \text{---}$	Read a story. Use information gained from illustrations and text to tell about the characters, setting, and plot.	Ride your bike on the road. Now ride your bike in the grass. Explain why humans made roads over areas where there was grass.	Write about a small moment. Example: birthday party. Only discuss events at the party. Don't forget characters and setting!	Read 20 minutes. Log all books read. 	Practice Sight Words Review
Practice 	Add two digit numbers together.  $22 \quad 33$ $+15 \quad +12$	Read a story. Answer questions about who, what, when, where, and why to understand key details in the text.	If you could add an animal part to your body what would it be? Would you want wings to fly or a turtle shell so you never get hurt.	Create a fictional narrative. Example: Superhero saves the school. Include characters, setting, problem, and solution.	Read 20 minutes. Log all books read. 	Practice Sight Words Review
Practice 	How is adding a single digit to a two digit number different from adding two digit numbers together? How are they the same?	Read a story. Describe how characters respond to challenges.	Go in your backyard and find living and non-living items.	Write about your favorite snack. Begin with an opinion. Give reasons why the snack is your favorite.	Read 20 minutes. Log all books read. 	Practice Sight Words Review
